Reason for recruitment as Healthcare Professionals:

• What is your opinion about Pulmonary Rehabilitation (PR)? Is it needed or not needed?
• What challenges you think there would be while establishing a PR centre in a rural Indian setting?
• Do you think psychosocial counselling is important? Give reasons for your answers.
• How you motivate your patients? Are you using any specific counselling approach?
• What according to you are the benefits of PR?
• What according to you are the risks of PR?
• Do you also involve the patient’s family in the treatment? How?
• How do you prepare patients for maintain the lifestyle changes they have made for PR?
• How do you view your role in the behaviour change process that patients go through?
• What facilitating and impeding factors influence patients in adopting PR?

Do you have any questions for me?

Thank you for your precious time. I will convey the study results to you after completion of the study.
