________________________________________________________________________

• How does COPD affect your daily life?
• Are you satisfied with the treatment you are receiving for your illness?
• Have you noticed any factor that may trigger your breathing difficulties?
• How do you lessen your breathing discomfort?
• Have your healthcare professionals offered you any choice or options for seeking Pulmonary Rehabilitation (PR) as a treatment?
• Do valuable persons in your home environment understand and support you regarding your illness?
• How would you like your heath to be improved?
• If given a regime of Pulmonary Rehabilitation (which has proven to improve quality of life in patients suffering from COPD), which includes exercise, medications, counselling and diet modifications, would you like to practice/follow PR? Give reasons for your answer.

Do you have any questions for me?
Thank you for your precious time. I will convey the study results to you after completion of the study.
