

Pre-defined inclusion/exclusion screening checklist

- Include for full text review if all 7 screening questions answered 'YES' or 'UNSURE'
- Exclude article if at least one screening question answers 'NO'
- Apply hierarchical ordering of abstract screening questions – as soon as 'NO' answered, exclude and stop screening.

		YES	UNSURE	NO
Study				
1	Does the title & abstract use English?			
2	Does the title & abstract indicate the publication is NOT an expert opinion paper or review?			
Population				
3	Are the study participants >16 years of age?			
4	Have the study participants received a diagnosis of ILO?			
5	Has the diagnosis of ILO been given based on direct laryngeal imaging (i.e laryngoscopy or scanning) or via the Pittsburgh questionnaire?			
Intervention				
6	Have the participants received non-pharmacological intervention(s) to treat ILO symptoms?			
Outcome				
7	Are reported outcomes specific to ILO? (e.g. symptoms, direct visualisation, healthcare utilisation)
